

June 10 (Fri)

ROOM 321

Special Lecture : Structure and Functionality

Chair : Jung-Ah Han (Sangmyung University, Korea)

SI4-1

14:20 ~ 14:45

Production, Structural Characteristics, and Glucose Response in Mice of Slowly Digestible Starch from Waxy Potato Starch Modified by Heat-Moisture Treatment
Chang Joo Lee (Seoul National University, Korea)

SI4-2

14:45 ~ 15:10

Evaluation of Microbial Transglutaminase and Mungbean Protein on the Low-Salt Meat Systems
Hong Chul Lee (Chonnam National University, Korea)

SI4-3

15:10 ~ 15:35

Rice Starch: Molecular Structure and Its Relationship with Amylose Content
Inmyoung Park (Seoul National University, Korea)

SI4-4

15:35 ~ 16:00

Comparative Analysis of Korean Human Gut Microbiota by Barcoded Pyrosequencing
Young-Do Nam (Korea Food research Institute, Korea)
