

June 8 (Wed)

ROOM 325B

Symposium for Functional Black Garlic

Sponsored by **UBRIS**

15:30~ 15:35 Opening address Prof. S. H. Lee (Director of UBRIS, Kyungwoon University)

15:35~ 15:40 Congratulatory Address by Mr. B. Kim (Magistrate, Uiseonggun County)

Chair : S. H. Lee (Kyungwoon University, Korea)

BGS-1 **15:40 ~ 16:20**
Allicin Bioavailability from Alliinase-inhibited Garlic
Larry Lawson (Silliker, Inc., Utah, USA)

BGS-2 **16:20 ~ 16:40**
Research for Optimization of Black Garlic Manufacturing Process and Standardization of Functional Compound in Black Garli
Hyun Jin Park (Korea University, Korea)

BGS-3 **16:40 ~ 17:00**
Preparation of Encapsulated Alliinase in Alginate Microparticles
Y. Lee (Korea University, Korea)

17:00 ~ 17:10 Break

Chair : Larry Lawson (Silliker, Inc., USA)

BGS-4 **17:10 ~ 17:30**
Yeast Fermentation Increase Bioactivities of Aged Black Garlic on High Fat Diet Supplied Diabetic Obese Mice
S. H. Lee and Y. M. Jung (Kyungwoon University, Korea)

BGS-5 **17:30 ~ 18:10**
Garlic Compounds and Their Biological Effects and Stability
Taiichiro Seki (Nihon University, Japan)

18:10 ~ 18:30 Discussion

18:30 ~ 20:00 Dinner
